10 . Site 31	Not Found

Culture Method Detection Results:

Not Found or Presumptive Positive

NOTE: Additional serological or PCR testing required by 3<sup>rd</sup> party for confirmation testing.

### Standards:

Environmental microbiological testing standards are determined by the report recipient organization's Quality & Food Safety Programs

<sup>1</sup> The results stated relate only to the items tested, for the sample(s) as received

Standards section: Standards must be determined by your organization based on your own risk analysis.
