Units for test results are Colony Forming Units (CFU) per plate for XX exposure time (ex. 15 minutes)

NOTE: there are no regulatory standards for environmental or compressed air testing

Standards section: Standards must be determined by your organization based on your own risk analysis.

Standards:

Environmental microbiological testing standards are determined by the report recipient organization's Quality & Food Safety Programs

¹ The results stated relate only to the items tested, for the sample(s) as received; CFU = Colony Forming Units
